

Position Description (App Developer)

Reports to: Mr. “Coach Nic” Colbert, Chairman & Chief Coach

The App Developer role will be responsible for developing proprietary custom software applications. The developer will create software for computers, mobile devices, and websites. This person will also update user software and conduct quality control functions.

The Work

- Collaborating with the chief coach and clients to identify end-user requirements and specifications
- Designing algorithms and flowcharts to create new software programs and systems
- Producing efficient code based on requirements
- Testing and deploying programs and applications
- Troubleshooting, debugging, maintaining, and improving existing software
- Compiling and assessing user feedback to improve software performance
- Observing user feedback to recommend improvements to existing software products
- Developing technical documentation to guide future software development projects

The Opportunities

- Become a paid 1099 contractor to Coach Nic DC and its subsidiaries, and eventually have the opportunity to become a salaried employee.
- The opportunity to have direct, consequential, and immediate impact from your performance that builds your career.
